

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	01 July 2026
Team ID	
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Collection	Collect UNESCO World Heritage Sites dataset. Import dataset into Tableau. Validate dataset for analysis.
FR-2	Data Preparation	Handle missing values. Remove duplicate records. Create calculated fields. Standardize and clean data.
FR-3	Data Visualization	Create Bar Chart. Create Pie Chart. Create Line Chart. Create Interactive Map. Create Tree Map.
FR-4	Dashboard Development	Design interactive Tableau Dashboard. Apply filters and parameters. Display Key performance indicators (KPIs). Enable interactive user exploration.
FR-5	Story Development	Develop Tableau Story Points. Present insights sequentially. Explain visual findings with storytelling.
FR-6	Website Development	Develop Flask-based website. Integrate Tableau Dashboard. Integrate Tableau Story. Display project overview and UNESCO information.
FR-7	User Interaction	Navigate between web pages. Access Dashboard and Story. View project information. Explore interactive visualizations.
FR-8	Reporting & Insights	Display heritage distribution analysis. Show country-wise statistics. Present endangered heritage analysis. Provide trend analysis and forecasting.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The website should provide a simple, attractive, and user-friendly interface that allows users to easily explore UNESCO heritage information and visualizations.
NFR-2	Performance	Dashboard pages and Tableau visualizations should load quickly and respond smoothly to user interactions.
NFR-3	Reliability	The application should consistently display accurate UNESCO heritage data and ensure uninterrupted access to dashboard and stories.
NFR-4	Availability	The website and embedded Tableau Public dashboards should be accessible online whenever users visit the application.
NFR-5	Scalability	The system should support future expansion by accommodating additional UNESCO datasets, dashboards, and visualizations without major modifications.
NFR-6	Security	The website should securely integrate Tableau Public content and prevent unauthorized modification of project files and data.
