

Project Design Phase

Problem – Solution Fit Template

Date	02 July 2026
Team ID	
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ Understand the existing situation in order to improve it for your target group.

Purpose / Vision

Define CS, fit into CC 1. CUSTOMER SEGMENT(S) Who is your customer? i.e. Data analysts, researchers, students, heritage enthusiasts, tourism planners, policy makers. CS	6. CUSTOMER CONSTRAINTS What constraints prevent your customers from taking action or limit their choices of solutions? i.e. limited time, lack of data, complex tools, high cost of analytics platforms, lack of technical skills. CC	5. AVAILABLE SOLUTIONS Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. manual reports, static spreadsheets, general BI tools, existing dashboards. AS Explore AS, differentiate
Focus J&P, tap into BE, understand RC 2. JOBS-TO-BE-DONE / PROBLEMS Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one, explore different sides. i.e. Need to explore UNESCO heritage data, identify trends, compare countries, track site status, analyze geographical distribution, create reports for decision-making. J&P	9. PROBLEM ROOT CAUSE What is the real reason that this problem exists? What is the back story behind the need to do this job? i.e. Data scattered in raw format, difficult to clean and analyze, lack of interactive visualization, complex tools not accessible to all users. RC	7. BEHAVIOUR What does your customer do to address the problem and get the job done? i.e. manually analyze spreadsheets, create charts in Excel, search for information on multiple websites, use basic dashboards, spend more time in data preparation. BE Focus on J&P, tap into BE, understand RC
Identify strong TR & EM 3. TRIGGERS What triggers customers to act? i.e. new data release, policy planning, research needs, academic projects, tourism reports, heritage site monitoring. TR	10. YOUR SOLUTION We provide an interactive dashboard and storytelling platform for UNESCO World Heritage Sites data. We clean, analyze and visualize the data using Tableau and publish insights. Users can explore dashboards and stories through a web application built with Python Flask. SL	8. CHANNELS OF BEHAVIOUR 8.1 ONLINE Users access dashboards and stories via web browser through our Flask web application (deployed online). 8.2 OFFLINE Insights and reports can be downloaded in PDF/CSV/Image format for offline use. CH Extract online & offline CH of BE
